Currently Funded Research and other Sponsored Projects**

Acute and Chronic Care Department

<b>Principal Investigator</b>	<b>Agency</b>	<b>Grant type</b>	<b>Protocol Title</b>	<b>Project Dates</b>
<b>Allen, Jerilyn</b>	NHLBI	R01	Reducing Total Cardiovascular Risk in an Urban Community	2005-2010
This study is based on the premise that a community-based participatory research partnership model using a team of an advanced practice nurse case manager, CHW, and physician, can be translated into urban community clinics and can improve the quality of care and reduce disparities in cardiovascular health in minority and other underserved populations.				
<b>Allen, Jerilyn</b>	NIH	T32	Interdisciplinary Training in Health Disparities Research	2007-2012
The overarching goal of this research education program is to prepare nurse scientists to identify, prevent, and reduce health disparities in under-served populations.				
<b>Allen, Jerilyn</b>	NINR	P30	Center for Collaborative Intervention Research	2004-2009
The purpose of this study is to integrate the expertise of interdisciplinary teams to facilitate collaborative intervention research and support the training of developing researchers.				
<b>Gaston-Johansson, Fannie</b>	NIH	T37	Minority Global Health Disparities Research Training Program	2005-2014
The main goal of this program is to provide international health disparity research opportunities to undergraduate and graduate/medical students who are from health disparities populations in order to meet the nations need for increasing the number of minority researchers who pursue biomedical, bio-behavioral, and clinical research careers.				
<b>Gaston-Johansson, Fannie</b>	NIH	Sub-contract under P20	Preventing and Managing Symptoms in AA Women with Breast Cancer	2008-2012
The purpose of this study is to describe the prevalence and severity of pain and other cancer related symptoms, coping strategies and quality of life in AA women with breast cancer during chemotherapy.				
<b>Gross, Deborah</b>	NIH		Engaging Low-Income Parents in Prevention Programs	2008-2011
Purpose of this study is to test the cost-effectiveness of providing childcare discounts contingent on participating in a preventive parenting program at their child's day care center.				
<b>Hill, Elizabeth</b>	NIH	KL2	Tailored Fall Prevention Strategies for Nursing Home Residents	2007-2009
This study will focus on the design of innovative preventive interventions for residential long-term care settings.				
<b>Immelt, Susan</b>	Mt. Washington Ped. Hospital		Educational approaches to developing a culture and climate for excellence	2007-2012

**Johns Hopkins University, School of Nursing  
Currently Funded Research and other Sponsored Projects**

<b>Kozachik, Sharon</b>	ONS	Research Grant	HPA Axis Responsivity, Paclitaxel-Induced Mechanical Hypersensitivity and Sleep	2009-2011
To determine sex and hypothalamic-pituitary-adrenal (HPA) axis responsivity differences of rats in sleep changes due to paclitaxel-induced mechanical hypersensitivity.				
<b>Kozachik, Sharon</b>	ANF	Research Grant	The effects of sleep disruption on paclitaxel-induced mechanical hypersensitivity in rats	2008-2010
To determine the long term effects of chronically restricted sleep on paclitaxel-induced mechanical hypersensitivity; To determine whether there are sex differences in mechanical hypersensitivity or sleep parameters in paclitaxel-injected animals.				
<b>Nolan, Marie</b>	NIH	R01	Trial of Ascertaining Individual preferences for Loved Ones' Role in End-of-life	2009-2014
The goal of this study is to test the effect of a clinic-based, nurse-led discussion intervention to determine how patients with terminal illness wish to involve family in their health care decision making and to prepare family to take on this role.				
<b>Nolan, Marie</b>	Jonas		Jonas Nursing Scholars Grant	2008-2012
The program awards a maximum of \$70,000 per year for tuition, stipend and related expenses. The Johns Hopkins Jonas Nursing Scholar will agree to complete the PhD program within four years, conduct the dissertation study in New York City and, upon graduation, teach on a nursing faculty in the New York City metropolitan area for at least four years.				
<b>Page, Gayle</b>	NIMH	T32	Interdisciplinary Training in Biobehavioral Responses to Stress	2005-2010
The goal of this project is to establish an interdisciplinary training program in bio-behavioral pain research.				
<b>Page, Gayle</b>	University of Akron	R01	PTSD, Cortisol, Immune-Suppression, and Cancer Progression	2006-2010
The Purpose of this study is to examine the relationships among IPV childhood maltreatment resilience and PTSD on health outcomes.				
<b>Page, Gayle</b>	NINR	R21	Persistent Mechanical Hypersensitivity in Rats: Biobehavioral Effects	2009-2011
Despite the enormous scope of the problem of chronic pain, there is minimal understanding or study of the causes of the transition from acute pain to long-lasting chronic pain. The relevance of the proposed study to human health is the goal to discern what factors (e.g., sleep disruption, biological responses to stress and anxiety) increase one's risk to develop chronic pain.				
<b>Page, Gayle</b>	US-Israeli BiNational Foundation		Stress, Surgery, Immune Suppression, and Cancer Progression	2006-2010
<b>Rose, Linda</b>	HRSA	Nursing Education	LEADS project	2009-2012

**Johns Hopkins University, School of Nursing  
Currently Funded Research and other Sponsored Projects**

To increase the nursing education opportunities for students from disadvantaged backgrounds.				
<b>Rose, Linda</b>	MHEC	Nursing Education	NSP II	2009-2012
To develop a Faculty Academy for simulation teaching for statewide implementation in Maryland.				
<b>Rushton, Cynda</b>	EDC		Toward Optimal Palliative & End of Life Care in the PICU	2005-2009
To improve quality of life for children who are approaching the end of life.				
<b>Rushton, Cynda</b>	Robert Wood Johnson Foundation	Fellowship	RWJ Executive Nurse Fellow	2006-2010
The Robert Wood Johnson Foundation Executive Nurse Fellows Program is an advanced leadership program for nurses in senior executive roles who are aspiring to lead and shape the US health care system of the future.				
<b>Wenzel, Jennifer</b>	RWJF	Nurse Faculty Scholar Program	Building Support for Older Rural African Americans with Cancer	2008-2011
This project will assist patients and families through cancer diagnosis and treatment and help them negotiate the health care system.				
<b>Wenzel, Jennifer</b>	American Cancer Society		Developing Cancer Navigation Support for Rural African American Elders	2009-2014
The goal of this project is to to improve support resources and provide assistance for older rural African-Americans undergoing cancer diagnosis and treatment.				

Community and Public Health Department

<b>Principal Investigator</b>	<b>Agency</b>	<b>Grant type</b>	<b>Protocol Title</b>	<b>Project Dates</b>
<b>Campbell, Jacquelyn/Messing, Jill</b>	NIJ	R01 Equal.	Police Department's use of Lethality Assessments: An Experimental Evaluation	2008-2013
Evaluate the use of Lethality Assessment by first responders in intervention communities across Oklahoma contrasted to comparison communities in terms of repeat domestic violence, injury, quality of life and mental health of victims.				
<b>Campbell, Jacquelyn</b>	RWJF	Nurse Faculty Scholar Program	Robert Wood Johnson Foundation Nurse Faculty Scholars	2007-2012

**Johns Hopkins University, School of Nursing  
Currently Funded Research and other Sponsored Projects**

The purpose of this scholar program is to develop the next generation of nurse leaders in academia and boost the stature of junior faculty in nursing schools and to help nurse scholar advance in their fields and seek faculty positions earlier in their careers by providing mentorship, leadership training, salary, and research support.				
<b>Campbell, Jacquelyn</b>	Univ. of the US Virgin Islands	Sub-contract	Abuse Status and Health Consequences for African American and Afro-Caribbean Women	2007-2012
Identify physical and mental health consequences, especially health disparities, of intimate partner violence for women of African descent in health care settings in Baltimore and the US Virgin Islands using case control methods.				
<b>Farley, Jason</b>	NIH	KL2	Clinical, epidemiologic and microbiologic factors associated with CA-MRSA among persons with HIV/AIDS	2008-2010
The purpose of this study is to examine the epidemiologic interactions of patients with HIV/AIDS and drug resistance infections.				
<b>Farley, Jason</b>	NIH (See Miyong Kim for Center Grant)	P30 Research Grant	An Automated System for Prevention of CVD in HIV CaRE Settings (ASPIRE)	2009-2013
The goal of this project is to evaluate adherence of HIV/AIDS providers to cardiovascular disease prevention guidelines.				
<b>Farley, Jason</b>	JHU Center for Global Health	Intramural Grant	An Evaluation of Infection Control Practices in MDR and XDR-TB Cntrs in S. Africa	2009-2010
The goal of this project is to perform a systematic assessment of MDR and XDR-TB Centers in South Africa.				
<b>Farley, Jason</b>	NIH (See Jerilyn Allen for Center Grant)	P30 Pilot Grant-CCIR	Prevalence, Risk Factors and Molecular Epidemiology among Newly Admitted Psychiatric Patients	2009-2010
This cross-sectional study will determine the prevalence of MRSA among newly admitted MH patients by assessing MRSA colonization and/or infection as individuals enter the healthcare system.				
<b>Farley, Jason</b>	ICTR	Intramural Grant		2009-2010
This grant provides supplemental funding to support the necessary lab costs of the CCIR grant.				
<b>Glass, Nancy</b>	NIOSH	R01	Partnership to Improve Workplace Safety for In-Home Care Workers	2008-2013
To develop, implement and evaluate workplace interventions to prevent sexual harassment and workplace violence for home care workers.				
<b>Glass, Nancy</b>	NIOSH	R01	Evaluation of the Oregon Protective Leave Law	2008-2013

**Johns Hopkins University, School of Nursing  
Currently Funded Research and other Sponsored Projects**

Evaluate the effectiveness of the Domestic Violence and the Workplace training intervention on the utilization of Oregon's protected leave law, the development of workplace policies and the workplace climate towards domestic violence.				
<b>Glass, Nancy</b>	JHU Urban Health Institute	Intramural Grant	Evaluation of a small interactive safety decision aid for victims of domestic violence	2009-2010
The goal of this study is to further develop and test the computer safety decision aid for battered women.				
<b>Glass, Nancy</b>	CDC		Effectiveness of a Housing Intervention for Battered Women	2006-2010
The purpose of the collaborative study is to evaluate the effectiveness, including cost-effectiveness, of an existing innovative housing intervention provided by the Volunteers of America, Oregon (VOA) Home Free Program on the health, safety and resources of survivors of IPV, their children and community.				
<b>Sharps, Phyllis</b>	USAID	Co-Op Agreement	Treatment and Related Services in support of PEPFAR in South Africa	2007-2010
The general aim of this study is to strengthen Nurse initiated and manage antiretroviral therapy.				
<b>Sheridan, Daniel</b>	GOCCP		Forensic Nurse Examiner – Adult (Sne-A) Trainings in Maryland	2008-2009
This project will provide two State of Maryland, Board of Nursing-approved Forensic Nurse Examiner – Adult trainings.				
<b>Sheridan, Daniel</b>	GOCCP		Forensic Nurse Examiner – Pediatric (Sne-A) Trainings in Maryland	2008-2009
This project will provide 10 State of Maryland, Board of Nursing-approved Forensic Nurse Examiner – Pediatric trainings.				
<b>Walton-Moss, Benita</b>	NIH (See Miyong Kim for Center Grant)	P30 Research Grant	Promoting the Health Literacy of African Americans with High Blood Pressure	2009-2013
The purpose of this study is to develop a culturally sensitive intervention focused on health literacy that is designed to reduce HBP in a vulnerable AA population that includes substance users.				

Health Systems and Outcomes Department

<b>Principal Investigator</b>	<b>Agency</b>	<b>Grant type</b>	<b>Protocol Title</b>	<b>Project Dates</b>
<b>Abbott, Patricia</b>	NIH (See Miyong Kim for Center Grant)	P30 Research Grant	Telehealth Impact: Knowledge and Self-Management in African American HF Patients	2009-2013
The goals of this study are to develop and deliver a HF educational intervention tailored to the individual patient via an integrated telehomecare device, and to study the impact of this intervention on HF knowledge and self-management in AA HF patients.				

**Johns Hopkins University, School of Nursing  
Currently Funded Research and other Sponsored Projects**

<b>Dennison, Cheryl</b>	Hartford Foundation	Fellowship	Nurse-led HF care transition intervention	2008-2010
Under this fellowship, Dr. Dennison will engage in both research and professional development activities that will meld her ongoing research expertise in heart disease with her growing interest in geriatric nursing.				
<b>Dennison, Cheryl</b>	NINR	R21	Nurse-Led Heart Failure Care Transition Intervention for African Americans	2009-2011
We will assess the impact of the HFCTI at 30, 90, and 180 days after discharge from index hospitalization on the following: 1. Proximal Outcomes: a. HF care transition, b. HF knowledge, c. HF self management, and 2. Distal Outcomes: a. Rehospitalization rate, b. Number of emergency room visits, c. Functional status, and d. HF-related quality of life.				
<b>Han, Haera</b>	NCI	R01	Better Breast and Cervical Cancer Control for Korean American Women	2009-2014
This study proposes to test if a health literacy-focused intervention using a community-based participatory research process will be effective in promoting health literacy and increasing breast and cervical cancer screening rates among KA women.				
<b>Hill, Martha</b>	China Medical Board		Peking Union Medical College Nursing Doctoral Program	2004-2009
The long-term goal of this first doctoral program for nurses in China is to prepare a cohort of nurse leaders for Chinese higher education in nursing, nurse research, and health care administration.				
<b>Jeffries, Pamela</b>	MD Hospital Assoc.		Who Will Care?	2009-2014
The "Who Will Care?" campaign is an initiative to raise awareness about the nursing shortage.				
<b>Kim, Miyong</b>	NIH	Supplement	Health Literacy Intervention for Korean American with HBP	2009-2011
Supplement funding for a postdoctoral fellow				
<b>Kim, Miyong</b>	NHLBI	R01	Health Literacy Intervention for Korean American with HBP	2006-2011
The proposed study is a community-based randomized clinical trial with a parallel and longitudinal repeated measures design that will allow us to determine the effectiveness if the proposed literacy focused HBP intervention.				
<b>Kim, Miyong</b>	NIDDK	R18	Diabetic Care for Korean Americans with Type II DM	2009-2014
This project is design to conduct a randomized controlled trial of a community based behavioral intervention in linguistically isolated Korean immigrants with type 2 DM with endpoint focus on (1) improvement of glycemic control and BP control, (2) improvement of self-efficacy and self-help skills including health literacy skills, and (3) health related quality of life.				

**Johns Hopkins University, School of Nursing  
Currently Funded Research and other Sponsored Projects**

<b>Kim, Miyong</b>	NINR	P30	The Center for Cardiovascular Health in Vulnerable Populations	2009-2014
The goal of the research center is to build a sustainable model of a Research Center for Cardiovascular Health in Vulnerable Populations (CCHVP)				
<b>Szanton, Sarah</b>	NIH/GRPCI	KL2	Poverty, Oxidative Stress, and Cardiovascular Disease	2007-2009
The aim of this study is to contribute to a better understanding of increased atherosclerosis among low SES and minority people.				
<b>Szanton, Sarah</b>	Fagin Fellowship		Testing an Intervention for Promoting Health in African-American Older Adults	2009-2011
The major goals of this project are to conduct a randomized clinical trial of an intervention with low income African-Americans and to develop leadership skills.				
<b>White, Kathleen</b>	MDHEC	Nurse Support Program	Needs Based Graduate Education Partnership	2007-2012
The goal of NSP II is to increase the number of bedside nurses in Maryland hospitals. NSP II focuses on expanding the capacity to educate nurses and, therefore, concentrates on the nursing educational system, including schools offering nursing programs and hospitals.				
<b>White, Kathleen</b>	HRSA		Advanced Education Nursing Program	2007-2010
The goal of the program, as a result of the collaboration with 3 Maryland hospitals, is to increase the number of Masters' and Doctorally prepared nurses to fill the critical void in the clinical faculty workforce.				

Students and Fellows

<b>Principal Investigator</b>	<b>Agency</b>	<b>Grant type</b>	<b>Protocol Title</b>	<b>Project Dates</b>
<b>Alhusen, Jeanne</b>	NINR	F31	Facilitators and Barriers to Health Promoting Practices During Pregnancy	2009-2011
This longitudinal, mixed methods study aims to examine facilitators and barriers to health practices during pregnancy in a low socioeconomic, pregnant population.				
<b>Baty, Marguerite</b>	NIMH	F31	Examining HIV Risk, Relationship Power and Partner Violence in Cebu, Philippines	2008-2010

**Johns Hopkins University, School of Nursing  
Currently Funded Research and other Sponsored Projects**

To examine the interplay of IPV, relationship power, and HIV risk among young adults in Cebu Province, Philippines through an explanatory mixed methods design. Gain a better understanding of the individual, dyadic, community, social, and structural factors that impact HIV risk-reduction and IPV prevention that can be used to develop and test culturally appropriate, holistic interventions.				
<b>Cardella, Christina</b>	ACS		Graduate Scholarship in Cancer Nursing Practice	2009-2010
This scholarship will provide the opportunity to complete graduate studies in cancer nursing, as demonstrated in course papers and projects, clinical experiences and a scholarly paper for publication.				
<b>Franz, Kara</b>	APIC Research Foundation		An Evaluation of Infection Control Practices in MDR and XDR-TB Cntrs in S. Africa	2009-2010
The goal of this project is to perform a systematic assessment of MDR and XDR-TB Centers in South Africa.				
<b>Hatzfeld, Jennifer</b>	Tri Service Nursing Research Program	Graduate Research Program	Assessing for Health Disparities in Air Force Medical Service	2008-2010
This descriptive, Correlational study aims to assess for disparities in quality of care indicators for screening and management of chronic diseases by race/ethnicity, rank, and gender through the use of existing clinical and administrative data.
