

Dear Student,

The information found in this Career Binder has been developed to assist you in managing your nursing career from the day you enter your academic program. I hope you will take advantage of the guidelines it provides along with the services of the Career Center while you are a student at Johns Hopkins University School of Nursing.

Even though employment opportunities abound in nursing and you will have your choice of positions after graduation, it is important that you carefully evaluate your goals and interests prior to accepting even your first offer as a new graduate. Managing your career from the start will enable you to control rather than simply react to opportunities that will occur during your professional lifetime.

I am confident that you will find your Career Binder helpful. You can access it on-line at www.son.jhmi.edu/student_resources/career/binder in order to download additional copies of the documents.

You have my very best wishes for a successful educational experience and a rewarding career in nursing.

Sincerely,

Sandra S. Angell, RN, MLA
Associate Dean for Student Affairs
